Assignment

You will be required to submit assignments for each module and the assignments should include theory relevant to real-world workplaces and related to actual teaching situations. All the assignments within a module must be submitted all together at once.

Once the tutor receives and reviews the assignments, they will comment and ask you to resubmit them if any amendments are needed.

8 Micro Teaching

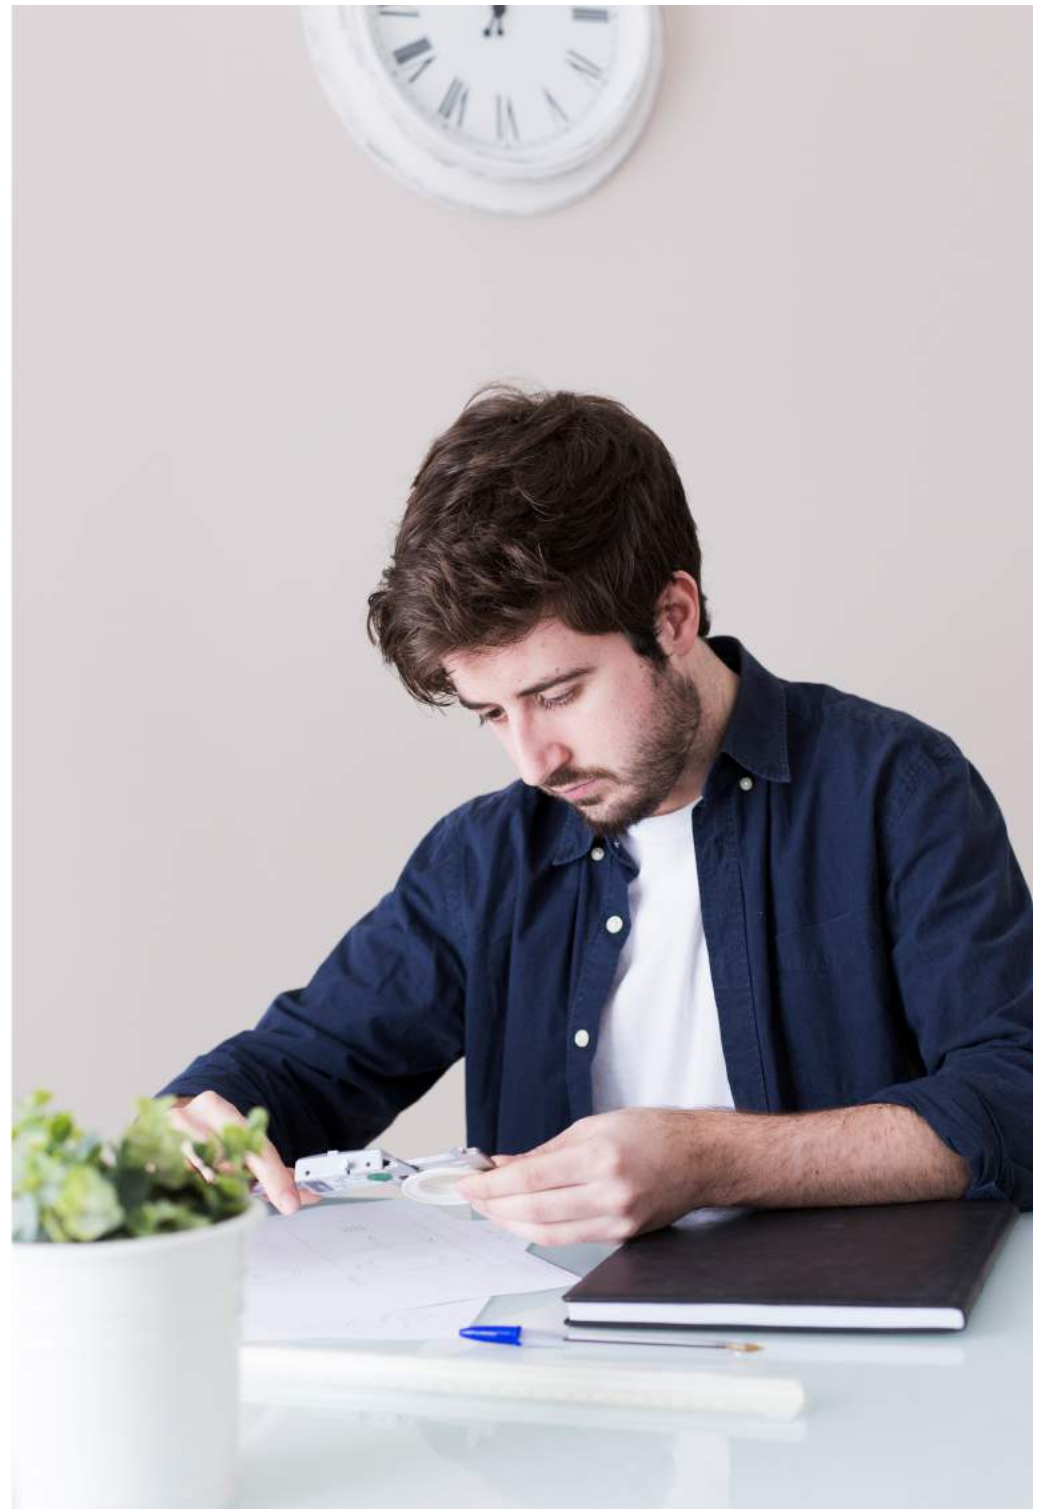

This element will allow you to gain practical teaching experience through micro teaching sessions, where you will receive feedback for improvement. Here you will demonstrate your knowledge and skills you have gained in units 1, 2 and 3.

Assessment:

To complete the assessment process, you'll submit a teaching evaluation that assesses you based on specific criteria. To finish the task, conduct micro-teaching sessions of at least 15 minutes in a classroom setting.

You will be required to record videos and share them. After submission, your teacher will individually review and grade your assessments. You can conduct more micro teaching sessions or observe other trainee teachers for the extra 45 minutes.

This practical assessment demonstrates your skills and knowledge from three units. You'll also provide teaching records like lesson plans and learner evaluations as proof of your classroom teaching experience.
